PROFESSIONAL EXPERIENCE

Front-End Developer

Jun '22 - Present

AT Digitals

Chennai, IN

Frontend Development & UI Frameworks

- Expanded and implemented **reusable components** for over 4+ projects and made it user friendly code
- Skilled in leveraging **Material-UI** to create visually appealing and cohesive component designs for over 4+ projects

Deployment and Hosting:

- Successfully deployed and hosted 4 projects locally and on Netlify, showcasing skills in **project management** and **deployment**

Form Integration and Data Management:

- Combined forms and field components, demonstrating expertise in seamless user interaction
- Implemented features like form **validation** and data **synchronization** for efficient data entry

Data Visualization & Responsive Design:

- Created **Apex Charts** to create interactive data reports, demonstrating expertise in data visualization
- Developed responsive components for **5+ devices** and collaborated on UI design across multiple projects, showcasing strong teamwork and communication skills.

PROJECTS

Domain: Web Application ([Playzo33](#)) | Tech Stack: TypeScript, CSS, HTML | Jan,2024

- Managed front-end designs for [Playzo33](#), ensuring an intuitive and visually appealing user experience.
- Integrated user authentication, requiring users to log in before booking any services, ensuring secure access.
- Developed and optimized all pages, including **payment pages**, ensuring accurate **payment calculations** and seamless transactions.

Domain: E-commerce Website ([ManyaClothing](#)) | Tech Stack: Shopify | Dec,2024

- Developed and optimized front-end screens for [ManyaClothing](#), ensuring a fully responsive design across all devices.
- Customized the Shopify theme and implemented custom sections to enhance store functionality and user experience.
- Wrote custom code to tailor the store's UI and features based on specific business requirements.

Domain: Web Application (Joules Premier Lounge) | Tech Stack: TypeScript, React, redux | April,2024

- Developed TA module pages, Delivery Manager module pages, consultant user profile pages and Delivery Head module pages.
- Integrated APIs for adding consultant details and skills pages, TA pages, Delivery Manager pages, and Delivery Head pages.
- Implemented **Redux for state management**, enhancing performance and scalability.

Domain: Web Application ([Black Wolf Supper Club](#), US), ([Blusim Tech](#), Singapore) | Tech Stack: React | July,2023

- Developed and optimized front-end screens for [Black Wolf Supper Club](#), and [Blusim Tech](#) ensuring a fully responsive design across all devices.
- Collaborated with cross-functional teams to deliver a seamless user experience while meeting tight project deadlines.
- Developed code to complete the assigned project by the deadline

KEY SKILLS

• Software Development • User-Interface Designing • Responsive Design • Frameworks and Libraries • Inventory Management • Package Managers • Unit Testing • Team Leadership • Team Management • Coding & Troubleshooting • Continuous Learning

TECHNICAL SKILLS

Programming Languages: React, Node.js, Python, JavaScript, TypeScript; Web Design: HTML5, CSS, JavaScript, JSP, Servlets; Database: My SQL, SQLite, MongoDB; Platforms: Shopify, WordPress
